AUTOMATED, HIGH-THROUGHPUT CHEMISTRY FOR ACCELERATED RESEARCH & DEVELOPMENT

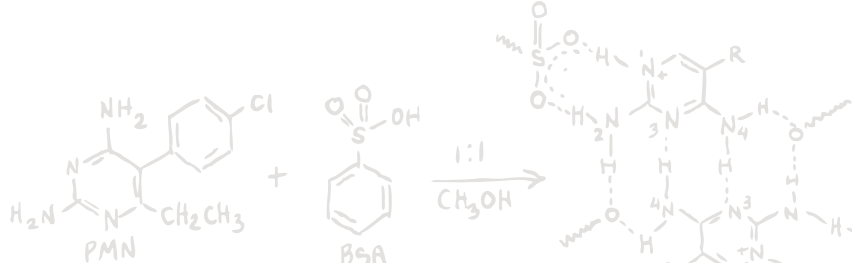

Thursday, NOVEMBER 9th, 2023

WHY JOINING THIS CLUB?

ESCOM Chimie is a French "Grande Ecole" wellknown in chemistry and chemical engineering with a well-established expertise and network in chemistry and life science. Chemspeed Technologies is the leading provider of high throughput and high output research & development and quality control workflow solutions. You will thus benefit from:

- Presentations from high-level academic and industrial R&D subject matter experts in automation chemistry
- Open round-table discussions with experts
- Join a network for future science activities in this field
- A peaceful and natural environment in the historical city of Compiègne, near Paris

AUTOMATED, HIGH THROUGHPUT CHEMISTRY FOR ACCELERATED R&D

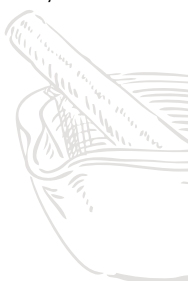

Thursday, NOVEMBER 9th, 2023

MORNING MATERIALS SCIENCE

V. Montell (Uni Lyon): R&D acceleration using Chemspeed automated platform for catalyzed transformations of olefins (oligo/polymerization...)

S. Paul (Uni Lille): "High-Throughput Catalysts Design & Development"

B. Roux (Solvay): "The use of automation to accelerate R&D activities in chemistry and formulation: technological developments, applications and new tools"

AFTERNOON LIFE SCIENCE

F. Paquet (BetterChem): "Automation in pharma research: optimization and diversification"

H. Caufriez (Sanofi): "HTE, an amazing tool for drug manufacture"

M. Grandjean and V. Thienpondt (Servier): "HTE: Development of accelerated industrial Synthesis routes"

INTERLUDES PLEASURE, TESTIMONY AND NETWORKING

- ESCOM CHIMIE visit
- CRYSTAL equipment live demo from Chemspeed Technologies
- Poster session
- Round Table discussions with Q&A, testimonials
- Lunch Buffet and networking

With the participation of CHEMSPEED
TECHNOLOGIES AG and SEQENS
